

SOUTH CAROLINA and NORTH CAROLINA CHAPTERS

AMERICAN COLLEGE of CARDIOLOGY®

The 31st Annual Joint Meeting of the North and South Carolina Chapters of the American College of Cardiology will be held **September 27-29 at Kiawah Island Resort in South Carolina**. Our meeting leadership is assembling an outstanding nationally known faculty, and we anticipate that cardiologists, cardiovascular surgeons, cardiac care associates, nurses, program administrators and guests will attend from across the Carolinas and neighboring states.

Our past annual joint conferences have always been very successful and well-attended, with 350 in attendance this past September 2023 and corporate support has been a major factor in this. We are asking for your support at the Annual Meeting. This opportunity to exhibit is open to all commercial supporters.

Many opportunities are offered for our supporters to participate in this conference. All breaks with food and refreshments will be held in the exhibitor's hall, which is separate from the meeting area.

A mixture of clinical and socioeconomic topics relevant to the practice of cardiology will be presented. Sessions will include clinical topics, an update on recent healthcare reimbursement issues, NC and SC Chapter meetings, an update on activities within the American College of Cardiology and nationally known speakers.

In addition, the Chapter will be holding a Fellows-in-Training seminar, Cardiovascular Team seminar and a Women in Cardiology seminar on September 27. Each of these programs has been held at prior meetings and have been extremely successful and received positive feedback.

We hope we can count on your support this year and that you will attend this important event. You may contact the South Carolina Chapter office by emailing velia@firstpointresources.com if you have any questions.
